

FROM HERE ON OUT

For many, 2021 was another disruptive year, a time of transitioning in and out of the office space. Many organisations are now moving headlong into measures for a post-pandemic workplace, but how many of us have taken the time to pause, reflect and learn from our experiences?

Sign-up your leadership team now for a tailored Leadership Sensemaking Workshop. Kickstart the new year with fresh perspectives, insights and strategies for your organisation.

MAKING SENSE OF 2021

The pandemic has continued to be hugely disruptive, forcing organisations to fundamentally re-imagine their ways of working. It presented many challenges, as well as opportunities.

As we enter 2022, now is the time to recognise all that has been achieved and reflect on what has been learned.

In this session, participants will individually and collectively make sense of 2021 for their organisation to identify what learnings will serve them well in 2022. Taking the time to make sense of such a tumultuous year collectively as leadership will set your organisation up for success in the new year.

This workshop is beneficial at any time but best suited for the first quarter of 2022.

LEADERSHIP SENSEMAKING WORKSHOP GOALS

At the end of the workshop, participants will:

- Share key learnings and challenges faced in leading high performing teams over extended periods of enforced remote working
- Develop stronger peer connections leading to a collective sense of purpose and drive to continued organisational success through leading hybrid & distributed teams
- Identify which learnings from 2021 will be useful in 2022

Duration:

90 - 120 mins

Participants:

Small to large groups (up to 100pax)

Delivered:

In-person or virtually
